FOR SOLDIERS

Aid Requested to Quell Threatened Trouble on the Lehigh.

Demand Refused by Governor Pattison After Consultation with the Adjutant-General.

STATUS OF THE BIG STRIKE

More Men Put to Work and a Number of Trains Moved.

Coal Operators Endeavor to Adjust the Trouble-Nonunion Engineer Stoned by a Mob.

PHILADELPHIA, Nov. 22. - President Wilbur, of the Lehigh Valley, who is in the city, stated that he received information from Towanda, Bradford county, that Sheriff Powers had, in anticipation of trouble between the strikers and those friendly to the road's interest, called on Governor Pattison for military assistance. Mr. Wilbur was uable to give the details of the alleged troubles in Bradford county, but he thought it was of the most serious nature.

The position of the road in general and that of its late employes is practically the same as it has been for the past two days. The company is still hiring new men, and the strikers claim, in their reports to the grievance committee, that they are persuading many of them to leave their new employment. Past Grand Chief Thurston, of the telgraphers, stated to-night that he did not think the strike would last more than three days longer. He and his associates are earnest in their denunciations of any attempts at violence, either to life or property, on the part of the strikers, and they are counseling them to remain peaceful and

It was learned to-night that Governor Pattison this morning received a dispatch from the sheriff of Bradford county, saying that he was afraid that there was disorder there, and that he was afraid he might not be able to quell it, and asking for troops. The Governor, after consulting with Adjutant-general Greenland, decided not to send the troops.

TRAINS MOVING.

Blockade at Puffalo Broken-Switchmen Still at Work.

BUFFALO, N. Y., Nov. 23 .- The fifth day strike finds affairs on this the Lehigh Valley system better condition than has been at any time since the trouble began. Freight has been moved east, not much, to be sure, but then the blockade has been broken. The company is getting plenty of good men to take the places of the strikers, and is getting into better condition than ever to hustle the freight that has accumulated just as soon as the conditions will permit.

The Lehigh officials received word from Sayre to start a train east this afternoon. Quickly the order was complied with. At 2 o'clock engineer Johnson and conductor Cornell signed orders to "wild cat" from East Buffalo to Manchester. The fireman's name was Needham. Two new brakemen and one old employe, who acted as pilot, accompanied the train. It was what is known as a "light," and consisted only of citement when it moved out. A short time later orders were received to start another "light." It was started out of the yards

A special train from the down-town depot brought twenty new men to East Buffalo at 7:20 this evening. Half an hour later another special arrived at Williams street from the city with fifty men. The new men were taken to the temporary hotel. Orders were expected to send them to Sayre and other points this evening. Master Mechanic Campbell and Traveling Engineer Mooney to-day examined sixty-five applicants for places as engineers. They were placed on engines and given work to do about the A mental examination was made They were questioned about their records. Out of the sixty-five examined two were found incompetent.

In the Lehigh yards here there are about seventy switchmen employed. They are directly under the supervision of James F. general yard master. Not one of them has shown the slightest inclination to leave his post. To a reporter one of the Lehigh switchmen said, speaking with the consent of his mates: "We are perfectly satisfied with our treatment and have no fault to find. We do not know how the switchmen on other roads feel, but we do not propose to take any hand in this affair. We have not been asked to take the places of firemen, conductors or trainmen."

MAY SOON END.

Coal Operators Confer with Strikers and Railroad Officials.

WILKESBARRE, Pa., Nov. 23 .- A committee from the individual coal operators held a conference with the strike leaders this afternon. The individual operators are anxious that the strike should end, as they are losing a great deal of money. They cannot market their coal, and some of them have contracts which must be filled. As a result of the conference the strikers are very hopeful. William L. Conyngham, the wealthy coal banker, with headquarters in this city, had a long talk with President Wilbur at Bethlehem over the long-distance telephone immediately after the conference. Conyngham has important contracts to fill, and he is particularly anxious that some amicable agreement shall be reached. The advent of the individual coal operators into | the fight is a new phase, and a brotherhood man said this evening: "The individual coal operators may be the cause of our | members of his Cabinet and other distinwinning the strike within the next twenty-

N. T. Travis, a nonunion engineer, was assaulted while on his way home this evening. He had just completed his run and left his engine in the roundhouse. In a lonely part of the road he was struck on the arm by a large stone which disabled him for the time being. Superintendent Esser says he does not blame the strikers as much as the outsiders. The company moved another train out of

the Coxton yards to-night, the train going east. The force of deputy sheriffs at White Haven was doubled this evening. Two nonunion operators stationed there were the victims of intimidation. Thirteen nonunion men arrived at the Coxton yards this even-

ing from Sayre. STONED BY STRIKERS.

Engineer Hit on the Hend and His

Skull Probably Fractured. AUBURN, N. Y., Nov. 23 .- More trouble came between strikers in this city and nonunion men to-day. A train went to Ithaca. yesterday with Goldburg, an engineer from the Rome, Watertown & Ogdensburg road, in charge of the engine, and David Slocum, a boy from Auburn, as fireman. The train returned this afternoon, and when it pulled | 25c a bottle.

into the Lehigh yards a shower of stones from strikers and sympathizers crashed through the cab windows. David Slocum, the fireman, jumped from the cab and rushed into a house near by. The engineer was hit on the head by a big stone. His scalp was cut open and his skull probably fractured. A detective in the cab was also hurt in the arm. The police were hastily summoned and charged on the mob, which dispersed without much show of resistance when they saw the officers at hand. Another train came in from Sayre shortly after, but no further serious trouble occurred.

WOULDN'T HAUL THE TRAIN. New York Central Men Refuse to Han-

dle Lehigh Cars. FLEMINGTON, N. J., Nov. 23.-Late this evening Sheriff Lake, of this county, with several deputies, was ordered to Landsdown, where a sudden outbreak was sespected between new freight engineers and Lehigh Valley strikers.

The situation in this section is much the same. Both sides claim they are gaining. Two or three freights were sent out to-day. The passenger trains also ran regularly. The freight engines are being handled by the experienced engineers brought here from other places. The engine wipers are handling the shifting engines. An attempt was made this afternoon to run a Lehigh freight over the Central tracks. As soon as the Lehigh cars were attached the Central men, from the engineer to the rear brakeman, got off the train and stood beside the track. The Lehigh cars were detached and run on a siding. The Central men then resumed their places and took

their train out. The Old C., B. & Q. Men.

GALESBURG, Ill., Nov. 23 .- Deep indignation prevails in brotherhood circles here because of the statement telegraphed from Buffalo that the Chicago, Burlington & Quincy engine men who have gone East to take the places of strikers on the Lehigh road are men who went off the Burlingten on the occasion of the great strike. The reverse is true. The sixty men who have gone from here, including those who went last night and from Burlington, are largely men who took the places of the Burlington strikers. Many of them came from the East here, and not a few are men who had been laid off by the Burlington for wrecks or garnishes or other causes. The local lodge of Brotherhood of Locomotive Engineers sends three of its members to Buffalo to deny the statement sent out from there. Nearly all the old Burlington strikers have runs on union roads or are engaged in business.

The Mahanoy Division Out.

SHAMOKIN, Pa., Nov. 23.-The Lehigh Valley strike has extended to its Mahanoy division. The Brotherhood men went out today, between Shamokin, Mount Carmel, Delano and Mauch Chunk, and freight traffic is practically suspended. Several trains were run through with new men. The schedule is demoralized, and the strikers just now have the upper hand. They have made no attempts of violence, and say that they will conduct the strike on gentlemanly lines. The employes who are not Brotherhood men notified Superintendent Blakeslee that they would do their own work, but they would not fill any vacancies made by a striker.

Not Sending Men East.

CHICAGO, Nov. 23 .- "Our road has sent no men East to take the places of the strikers on the Lehigh and will not do so," said General Superintendent Bester, of the Chicago, Burlington & Quincy, to-day. "A number of men who have been in our employ have gone East to see if they could not secure positions, but we did not send them. Their action was entirely voluntary. Those who went were largely men who formerly lived in the East, and who came here to take places on our road when we had a strike. I suppose they thought this would be a good opportunity to get back to their homes.

Situation in New Jersey.

JERSEY CITY, N. J., Nov. 23 .- The Lehigh Valley strike situation remains without material change from last night. The company is increasing slowly the number of its moving freight trains. Although there is no present probability of the military being called out, orders have been issued to the Fourth Regiment of New Jersey not to leave town without permission from their officers, and to be in readiness for any emergency. In Wilkesbarre and the Wyoming vailey the 15,000 miners thrown out of work by the strike are still maintaing order, and the local authorities fear no outbreak.

Out of Coal. ALLENTOWN, Pa., Nov. 22,-The effects of the strike on the Lehigh Valley road are now being felt. The furnace at Macungle has been banked and the reed and drawing departments of barbed-wire mills shut down for want of coal. Only two cars of freight and twenty-five of coal arrived to-day for

LYING IN STATE.

General Rusk's Remains in the Church at Viroqua-To-Dav's Funeral.

VIROQUA, Wis., Nov. 23.-The remains of General Rusk, guarded by a delegation of the men who knew him on the field of the South during the troublous times of 1861 and 1865, rest in state in the little Methodist church. Simple services attended by the members of the family and the most intimate friends of the dead soldier-statesman were conducted at the family residence today, and then the body was borne to the house of God, where the last words over the dead will be said to-morrow. The last act at the cemetery will be the firing of a salute by a detailed guard of honor from the grand army post. Major Cheney, of Oak Park, Ill., a long

time personal friend of General Rusk, will have charge of the outside visiting delegations who come by special train while ex-Senator Taite, of this city, will perform like services in looking after the local attendance. Major Smith and General E. M. Rogers will join the special delegation at Sparta, and will assign all visitors mostly at residences. The telegram to-day from General Noble states that he is fil and will not be able to be present at the funeral and another from General Wanamaker is to the same effect. Both messages expressed regret at the forced absence of the writers and sympathy for the family. Viroqua expects to entertain several thousands of people to-morrow. General Harrison on his arrival, if time permits, will be driven direct to the Rusk residence. The guished guests will be entertained at the residence of E. H. Craig, General Rusk's son-in-law. Others will find entertainment at homes which will be thrown open to visitors. The church where the services will be held will not accommodate over 400 persons. The Masten Masons, Knights Templars and Loyal Legion, will occupy the church and others will be forced to find places in the church lot or the street. The exact cause of General Rusk's death will not be known, as no post mortem was held, the family objecting. The body was embalmed yesterday.

Received Ten World's Fair Prizes. PHILADELPHIA, Nov. 23,-The University of Pennsylvania received a large share of awards at the Columbian Exposition, no less than ten prizes having been accorded to the different departments which were represented. The educational exhibit, show-

"Mrs. Winslow's Southing Syrup" Has been used over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, adays pain, cures wind colic, regulates the bowels, and is the best remedy for diarrhea, whether arising from teething or other causes. For sale by druggists in every part of the world. Be sure and ask for Mrs. Winslow's Soothing Syrup.

given a medal and diploma, and the display of the museum of the department of archaeology, which formed a part of this collection, won seven awards in the rection of anthropology. The Mediterranean section received one award for the Lamborn collection of Roman glass and ancient Italian pottery, and another for the Cypriote pottery and bronze objects. The American section received an award for its collection of objects illustrating the archaeology of the Delaware valley.

ing the general work of the university, was

POWDERLY DEFEATED

His Faction's Candidates Not Elected by the Knights of Labor.

Bishop Chosen General Worthy Foreman and Hayes Retained as Secretary-Treasurer-Other Business.

PHILADELPHIA, Nov. 23 .- To-day at the meeting of the General Assembly, Knights of Labor, the relative position of the factions was changed and the vote for general worthy foreman is taken as indication of l'owderly's strength. There were two candidates for the place-M. J. Bishop, of Massachusetts, recognized as the candidate of the Hayes faction and those opposed to the general master workman, and the present incumbent of the office, Hugh Cavanaugh, of District Assembly 48, Cincinnati. The election stood: Bishop, 25; Cavanaugh, 11. The Hayes forces again carried their candidates to victory when the election of a general secretary-treasurer was ordered, he vote standing: Hayes, 25; Martin, 21. One of the anti-administration delegates said after the morning session that if the

election of the general master workman ad gone over until to-day Powderly would ave shared Cavanaugh's fate. In response o an intimation that many delegates beleved Sovereign was not a candidate and would not take the office, as he is a friend of Powderly's, a delegate said: "That is a distake. Mr. Sovereign is loyal to the orer, as all of us are, and he considers the good of the order above Powderly or any ther man. The trouble is that some men fter holding office for a long time believe hey have a mortgage on it. The Knights of Labor don't depend upon Powderly for in existence and would go on just the same t he dropped out of sight or died to-morow. It is Powderly's methods that we are ighting more than the man himself, and he ow has a fair warning to mend his ways r get out. He has been dictator and asamed to run things to suit himself long

ffect of a compromise then?" "No, indeed. It was a straightout fight or supremacy, and we won; that is all there Among other business transacted was an pproval of the report of the committee on ileage fixing the mileage of each delegate.

"The result of the election was not the

Several documents were received and reerred by the committee on distribution to abcommittees. One was from local asembly No. 2387, asking that a boycott be oushed. Another was a request for the oushing of a petition of Bellamy, of Eoson, for the government control of railoads. Another was in relation to the grievince against the Chicago steel works and nother in relation to the local beer boy-

The committee on law reported adversely

to the amendment to the constitution pro-

osed by the State assembly of Colorado, roviding for a change in the laws so that elegates to the General Assembly be ected by a popular vote in the various prisdictions instead of by districts and ocal assemblies as at present. The report as concurred in after some debate. Master Workman Powderly, in exercising he prerogatives of his office this afternoon n the General Assembly, submitted eight names to be voted for in the election of a ew executive board. Four are to be elected. Mr. Powderly's selections are: ohn Devlin, Detroit; A. W. Wright, Toron-: John Davis, Junction City, Kan.; Hugh avanaugh, Cincinnati; Charles R. Martin, l'iffin, O.; John O'Keefe, Philadelphia; John Costello, Pittsburg; Thomas O'Rielly, hiladeiphia. Congressman John Davis ithdrew his name and that of his son, harles S. Davis, was substituted. The resentation of this slate was very distasteul to the Hayes faction, who claim that owderly is resorting to what they term is autocratic practices. The session was a ulet one, but all hands were nevertheless very much wrought up over the list. It is aimed upon what seems to be good authorty that the Powderly contingent will not e strong enough to carry his nominations hrough. The names of the nominees will e presented the first thing in the morning for the consideration of the General Asembly, at which time a lively fight is an-

"If Mr. Powderly insists upon his nominaions being voted upon," said one of the elegates close to Mr. Hayes, "it is possible at a second resolution will be introduced leclaring vacant the office Powderly holds. It is understood by all the delegates that Mr. Sovereign, of Iowa, has, in such an emergency, consented to again become a andidate for the office of grand master The very strong vote polled gainst Powderly is a sufficient indication, since the sentiment has turned, that he would be successful Not only will he be acceptable to the order at large, but would be the more popular man among the rank and file than Powderly. On the other hand, the nominations are not acted upon by the General Assembly as Powderly desires t is very probable that he will resign and leave the hall with the twenty-one delegates who are known to have his interests t heart. If he does that he will go further. He will take the matter to court and enioin the others from carrying on the affairs of the order. It is not denied that he has the rules of the order to sustain him in this, and he will probably resort to it. If this is done another thing will happen. The order will be divided. Hayes will have his ollowers and so will Powderly. As the Knights of Labor is not a chartered organization both sides could lay claim to the title of the order with equal rights. However, the unexpected may happen, as it frequently does, and everything go on as Mr. Powderly desires. The majority of the delegates are confident that the assembly will not last longer than the end of this week, although some of them desire to continue

it a week longer. Window Glass Scale Signed. PITTSBURG, Pa., Nov. 23.-President Eberhart, of the window glass workers union, received word to-day that the scale had been signed by the Hartford City Glass Company. The firm will blow in on the night of Nov. 27. The Hartford City plant is the third largest of its kind in the country. In the northern district the scale has been signed by the United Glass Company. The firm has completed preparations to perate its two plants at Cleveland and The flint glass workers' union has settled lown to 2 long fight. The members of the organization declare that they have no hope of sattlement with the United States Glass

Company. They have no notion of making any overtures, and say they do not expect the company will propose a settlement.

IN FAVOR OF THE MEN. St. Louis Bridge and Terminal Com-

pany Trouble Adjusted. ST. LOUIS, Nov. 23.-The conference between Grand Chief Arthur, of the Brotherhood of Engineers, Grand Chief Sargent, of the Brotherhood of Railway Firemen, and General Manager Ramsey, of the St. Louis Bridge and Terminal Company, which has been held for three days past, concluded this afternoon and resulted in favor of the men. The trouble was about short runs. Hereafter when engineers and firemen are required to make short runs of an hour or so they will be paid for a half day's work. Messrs. Arthur and Sargent started East to-night to take a hand in the Lehigh Val-

Nail Mill Closed.

BEAVER FALLS, Pa., Nov. 23.-At noon to-day, the Carnegie Steel Company posted a notice that this evening at 6 o'clock the nail mill would shut down for an indefinite period. This includes both the day and night turns and throws between 250 and 300 men out of employment. This action on tice part of the company was a great surprise, as the nail mill has been running full force and would have turned out more work this winter than ever before had it not been for this shut down. The company assigns no cause for the action except that the | Information was received to-day by the present price at which nails are sold does not justify them in continuing running.

Canadian Boodlers Convicted. TORONTO, Nov. 23.—Hon. Thomas Mc-Greevy and N. K. Connelly were yester-day convicted of conspir cy to defraud the government, and sentenced to one year imprisonment each at hard labor.

Smallpox Dyidemie in Chicago. CHICAGO, Nov. 23.-The health commissioner declared to-day that smallpox is

The Ironclad Javary Sent to the Bettom by Peixoto's Forts.

All the Crew Reported to Have Perished, According to the News Received by a Brazilian Minister.

FLIGHT OF KING LOBENGULA

Trying to Escape the British in a Wagon Drawn by Men.

Samoa Likely to Fall Into English Hands -Arrival of Chief Justice Ide-Other Foreign News.

LONDON, Nov. 23.-President Peixoto telegraphed to the Brazilian minister in this city, yesterday, that the insurgent ironclad Javary had been sunk by the fire of one of the batteries at Nictheroy. The dispatch added that the crew of the Javary perished. The Javary was an iron-armored turret ship of 3,700 tons. She carried four ten-inch Whitworth muzzie-loading rifle guns, six five-inch rapid firing guns and five machine guns. The Javary had 2,200 horse power engines and twelve inches of armor. She was a powerful vessel, of light draught and suitable for coast defense or river service. She was built in France in 1875.

The Britannia Almost Rendy. NEW YORK, Nov. 23 .- Finishing touches to the Britannia, the sister ship of the Brazilian cruiser Nictheroy, which is to be called the America, were put on to-day. The armed cruiser will leave the dock at the foot of East Ninth street with the slack tide to-morrow. She will proceed to the bay, anchoring off Bedloe's island. Coaling will then be begun, and it is expected to consume two days. When it is completed the ship will leave for Brazil. The crew was taken on board to-day. It has been decided not to send the Yarrow torpedo boat to Brazil on the Britannia. What will be done with the boat is still being considered.

American Consul Arrested. NEW YORK, Nov. 23 .- The Herald's Rio de Janeiro dispatch says: "It has come to our knowle that the rebels on the island of Desterro, more than twenty-five days and, arrested Robert Grant, the American vice consul, who had gone there on the British steamer Gerda to bring away his family and some friends. After the arrest they forbade the vessel to hold any further communication with the shore. All the rest of the country is at peace.'

LOBENGULA FLEEING. Trying to Escape in a Wagon Drawn

by His Subjects. LONDON, Nov. 23 .- Premier Rhodes telegraphs from Capetown that Major Forbes wires that King Lobengula is trying to escape in a wagon drawn by natives, his oxen being exhausted. Dr. Jameson says that the whole matter is absolutely over, and expressed the hope that Major Forbes, who is accompanied by two hundred Europeans, will capture King Lobengula at any moment. Dr. Jameson emphasizes the fact that the forces of the chartered company dispersed the Matabeles without aid while the imperial troops were still fifty miles distant from Buluwayo, and would not yet have arrived there but for the assistance he sent them. Further, he says, it was only the new victory won by the forces near Buluwayo that caused Chief Gombo, Lobengula's son-in-law, with four thousand warriors, to flee, leaving undefended the difficult and dangerous Shang Ani Nek, through which it would have been impossible for the southern force to pass without annihilation had the Impis re-

According to a native statement, should Lobengula be captured his defeat and flight would be well regarded as depriving him of all rights to the kingship. He is said to be making for Zambezi, hoping to cross with the aid of friendly Batongas canoes to a point east of Wankies, his intention being to settle in the south Mashulunbwe country, three hundred miles north of the Zambezi. Rains and fever, however, are expected to assist in his capture. Major Rhodes has gone to meet Dr. Jameson, who has wired Commissioner Sir Henry Loch that the campaign is virtually ended.

LATEST FROM SAMOA.

H. C. Ide Installed as Chief Justice-

APIA, Nov. 7, via San Francisco, Nov. 23.-There has been no actual disturbance of the peace in Samoa, but the natives are far from quiet. Fear alone apparently prevents a new outbreak. H. M. S. Katoomba left here Oct. 14 for Fiji, but was not replaced until Oct. 25, when the Ravid arrived from Fiji. The German manof-war Sperber left to-day. She is to call at Fakaofo and take Mataafe to his new home in the Marshall islands. There is some talk of disarming the natives, but so far no steps have been taken. The steamer Mariposa arrived on the

3d, having H. C. Ide, chief justice-elect of

Samoa, and W. L. Chambers, United States land commissioner, on board. Upon her arrival I. H. Denvers, clerk of the Supreme Court, proceeded to the steamer in King Malietoa's boat, manned by native police in uniform and brought Mr. Ide on shore, where he was met by three consuls. Proceeding in two carriages to Mulinum they were met at the courthouse by Chief Justice Cederkrantz, and the British consul as senior introduced Mr. Ide officially. The retiring Chief Justice welcomed Mr. 1de to Samoa and Mr. Ide responded. The consuls then took their official farewell of Cederkrantz and left for Apia. The two judges remained and held a private con-ference. In the evening Chief Justice Cederkrantz left by the Mariposa for Europe. A large number of his friends were on board to say farewell. By the same steamer Mr. and Mrs. Robert Louis Stevenson returned to Apia from a trip to Honolulu. Mr. Stevenson appears to have recovered his health.

If the news received in San Francisco today by the steamship Alameda be correct it seems possible that there will be a change in the controlling interest in the Samoan Islands within a short time, and that the English will succeed the Germans in supremacy there. The Samoan Herald states that a syndicate has been organized in Australia, with Sir Robert Stout at its head, whose intention it is to purchase plantations and other property of the Deutsche Handels und Plantagen Gesellscheft in Samea. This company is commonly known in Samoa as "The German Firm." Its Interests are the largest on the islands. The Herald, commenting upon the proposed withdrawal of this firm, says: "If the firm should withdraw and its place be taken by an English colonial company or syndicate English interests and influences would so increase as to dwarf into utter insignificance all others, and there is little doubt that such acquisition would bring annexation within a measurable distance. It is only her material interest in Samoan property which she actually owns in this country which has caused Germany to take so large a share in Samoa's politics and history. To her the islands are of no strategi-cal importance. The disposal of the property means the extinguishment of German interests, and we have no doubt that when these commercial interests disappear, as they would on the property being acquired by an English company, official circles in Berlin would sigh a great sigh of relief at such a happy solution for Germany of the

troublesome Samoan difficulty." Alameda of another tragedy committed by the natives of the island of Pentevost, in the New Hebrides group. The victims were George Lifon, copra maker, of Ambrym, and two natives forming a portion of the crew of his vessel, a small cutter, sailing under the American flag. Lifon visited Pentecost for the purpose of recruiting labor, and early one morning, accompanied by two natives, left his vessel in a small boat for the purpose of bringing off several native recruits. Not returning at a late hour, those on board the American vessel-became alarmed, and, on the second boat landing, epidemic in Chicago. There are now it was discovered that the natives had jurors in seighteen cases of the disease in the city seized the first boat and massacred its occupants. The bodies of Lifon and one natio-morrow.

tive were found near the beach horribly mutilated. No trace could be obtained of the body of the other native, and it is concluded that the savages had taken it to their village for a cannibalistic feast.

PAUNCEFOTE MAY GO.

He May Be Succeeded at Washington by the Marquis of Dufferin. LONDON, Nov. 23 .- It is reported here that the Marquis of Dufferin will succeed Sir Julian Pauncefote as embassador at Washington. This rumor is not generally believed. The Evening News says in regard to the report: "The fact that the United States government intends to interest itself actively in South American affairs is given as a reason for Lord Dufferin succeeding Str Julian Pauncefote at Washington. It is hinted in some quarters, however, that the friendship which exists between President Cleveland and Mr. J. H. Davis, of New York, the father-in-law of Lord Terence Blackwood, Lord Dufferin's son, is the real

Russia's Alleged Schemers. VIENNA, Nov. 23 .- The Pester Lloyd prints an article signed by Herr Remenyi, a famous writer and former attache of the Austrian embassy at Constantinople, giving details of the growth of the naval strength of Russia. The writer says that Russia is already independent of English coal. Quoting General Todleben's dictum that the Eastern question cannot be solved until Russia has a large Black sea fleet, the writer says that this has almost been attained, and, he asserts, Russia's next offensive movement will be directed not against Constantinople, which would fall an easy prey, but against Erzerum, with the idea of seizing the Euphrates and turning England's position in Egypt, with ul-terior designs for India. Herr Remenyl takes it for granted that the Sultan of Turkey is prepared to throw himself into the arms of the Czar, and states as an ascertained fact that Russia has promised Crete to Greece in return for Grecian assistance in the next Eastern war, which he considers is fast approaching.

Wants the Cabinet Impeached. ROME, Nov. 23 .- The Chamber of Deputies reopened to-day. The first incident of the session was an attack upon the government by Signor Imbriani, the Radical leader. As soon as he had taken the oath, Signor Imbriani began a violent speech in which he charged the ministry with leading Italy upon the road to ruin, and offered to support any motion whose object was the impeachment of the Cabinet. President Zanardelli announced that the bank commission had handed him its report in a sealed packet. It was read. Briefly, the report says there had been a systematic disregard of order and regularity in the action of the government towards the banks since 1880. The commission expresses strong disapproval of the concealment of a substantial portion of Biagni's report on the Banca Romana, and animadverts upon the fact that some of the seized papers were withheld from the magistrates who were deputed to conduct an inquiry into the criminal aspects of the bank

Electoral Reform in Austria. VIENNA, Nov. 23.-The Reichstrath resumed its sittings to-day. Premier Windisch-Graetz, in announcing the policy of the new Cabinet, said that the government's chief work will be to bring about an extensive electoral reform, according to the agreement of the great political parties. While maintaining the interests of the existing parties and various provinces, the franchise would be conferred upon classes which had hitherto been deprived of it, especially upon workmen, and would also assure the political rights of peasants and citizens and lead to an increase in the number of Deputies and to a revision of the electoral districts. Pending the execution of this great reform all other questions will remain in abeyance.

Their Uniforms Were Too Thin. LONDON, Nov. 23 .- There is much agitation in military and other circles here regarding what the St. James Gazette calls "a military scandal." It refers to the alleged inadequate clothing of British soldiers during wintry weather. This stir has been created by the publication of the fact that two soldiers perished near Portsmouth during the recent storm. The soldiers referred died from exposure on Sunday night while attempting to walk across a hill to their barracks. It now appears that these two men had just returned from Aden and that they were attired in light uniform and that they had no overcoats.

Killed by an Avalanche. PARIS, Nov. 23.-A dispatch from Pau tells of a terrible accident near Oloron, in the Basses Pyrenees. On Tuesday morning a party of nine villagers, including the Mayor and deputy Mayor of the Alpine commune of Louvie-Loubiron, went in search of some strayed flocks. The party was absent the entire day. When returning, at 8 o'clock in the evening, and passing be neath a steep mountain, they were engulfed by an avalanche, only one of the entire party escaping alive. The bodies of the victims of this Alpine disaster were recovered

late yesterday evening. Englishmen Behind Americans. LONDON, Nov. 23.-There was a notable gathering here at the annual dinner of the Institute of Electrical Engineers, at which the president of the Board of Trade, Mr. A. J. Mundella, Mr. Arthur Morley and other prominent people were present, including Mr. Ward, honorary secretary for the United States. President Preece said that there was only one branch of the electrical industry in which the English favorably compared with their American cous-ins. They were, he said, certainly aread in telegraphy, but behind in every other

237 Lost; 506 Saved. LONDON, Nov. 23.-In the House of Commons to-day Mr. A. J. Mundella, President of the Board of Trade, stated that so far as had been ascertained 237 lives were lost off the British coast during the recent gale and that 506 lives were saved by the coast guardsmen and life-saving crews.

Kossuth Seriously III. TURIN, Nov. 23 .- Louis Kossuth, the Hungarian patriot, is seriously ill. Cable Notes.

Count Potocki, the Russian imperial cupbearer, is dead. Forty-nine fishermen lost their lives near Copenhagen during the recent storms. An Anarchist conspiracy to blow up the French Law Court and a new mosque at Algiers has been discovered. The employers' liability bill passed its third reading in the House of Commons

In the German Reichstag, yesterday, the bills to ratify the treaties of commerce with Spain, Roumania and Servia were read for the first time. & A body of Moors is threatening the Spanish settlement at Cape Juby, on the west coast of Sahara, opposite Fuerteventure, one of the Canary islands.

Mr. and Mrs. Gladstone and Earl Spen-

last night without a division.

cer, First Lord of the Admiralty, accompanied by Countess Spencer, are at Windor Castle on a visit to Queen Victoria. A rich New Yorker named Nicholas Plohn, seventy-six years old, who had been visiting relatives at Lubeck, was murdered in a forest near Lubeck a few days ago. An Anarchist bomb has been exploded in the machinery of a tactory in the village of Piefenbach, near Gablonz. Considerable damage was done to the machinery, but nobody was injured.

The Hamburger Nachrichten says that Prince Bismarck, who has been compelled to spend most of the last three months on a sofa, is now able to take regular walks; that his recovery is gradual, and that it is hoped that he will have completely recovered his health by next spring.

The sentence imposed on Herr Reichard. Protestant student, and Herr Sonnen burg, a publisher of Treves, for an attack upon the Catholic Church, in connection with the hely-coat exhibition, has been commuted to a week's imprisonment in the fortress for Herr Reichard and to 100 marks fine for Herr Sonnenburg. The success of Lord Rosebery, the Brit-

ish Secretary of State for Foreign Affairs, in bringing about a settlement of the great coal strike has resulted in the Gladstone government coming to the determination to intrust the Secretary for Scotland, Sir George Trevelyan, with a similar role in regard to the Clyde shipyards' strike, v.ich has now lasted two months.

Investigating a Looted Bank. NEW YORK, Nov. 23.—The grand jury, to-day, resumed consideration of the charges against the president and directors of the Madison-square Bank. Cashler Thompson, an expert accountant and a notary public, who attested the statements of the accused officials were heard. District Attorney Davis was present to assist the jurors in sifting the facts in the several cases. No indictments are expected before

CAUGHT BY A FAILURE

Alleged Victims of the American Casualty Insurance Company.

Many Street Railways Reported to Be Nipped-What Agent Pangborn, of Indianapolis, Says.

CHICAGO, Nov. 23 .- The prospect of having to pay camages twice as a result of the failure of the American Casualty Insurance and Security Company stares a number of Western street and steam railroads in the face. They have already paid the casualty company to relieve them from liability, but the casualty company, insolvent, cannot do this, and any judgments secured will have to be settled by the railroads themselves. Among the companies that have done business with the casualty company, and which may be affected to a greater or less extent by its failure, are the North and West-side cable roads in Chicago, the Chicago & Eastern Illinois, the Calumet electric and street railroads in Minneapolis, St. Paul, Kansas City, St. Louis, Peoria and Springfield. The amount for which these companies may be caught depends upon the amount of litigation pending and the outcome when the cases come to trial. Only the books of the company or the court records can show how many such cases there are, but it is said there must be hundreds of them, and the amounts involved will foot up a pretty

A dispatch from Baltimore says: The Mer-cantile Trust and Deposit Company, of Baltimore, and Edwin Austin have been apcointed receivers of the American Casualty Insurance Company, and possession has been taken by them.

A dispatch from New York says: The office of the American Casualty Insurance and Security Company, on Pine street, the directors of which yesterday decided to apply for a receiver, was in charge of R. K. Sheldon to-day. No business, however, is being done. Receivers were appointed to-day in the Baltimore courts for the company is a Maryland corporation. The company is not in charge of Superinendent J. F. Pierce, of the State Insurance Department, as reported. That official has simply taken notice of the bankruptcy of the company and has reported the fact to Attorney-general Rosendate, at Albany, so that he may take the necessary steps to protect the policy holders in this State. His deputy, Mr. Shannon, said to-day that as soon as official appointment of a receiver in Maryland has been received the Attorney-general would apply for the appointment of an auxiliary receiver, who would take charge of the assets of the company in this State. There is a fund of \$250,000 deposited by the company with the State banking department at Albany for the protection of the policy holders in this State which is still intact. Deputy Sheriff Fox has received an attachment for \$5,500 against the company in favor of the Fidelity Title and Deposit Company.

George W. Pangborn, of this city, is the

Indiana agent of the American Casualty

Company, whose embarrassment was men-

tioned in the Journal yesterday morning. Mr. Pangborn received a telegram yesterday which would intimate that a receiver had been appointed in accordance with the petition filed in the New York court. The company's premiums in Indiana amount to about \$60,000, but there are no great number of cases in litigation where defendants are guaranteed against liability by the casualty company. Said Mr. Pangborn yesterday: "I think the company will pay dollar for dollar. Its present embarrassment is due, I understand, to the stringency of the moneymarket this summer and winter. I went to New York to look into the affairs of the company last summer, and I was assured that the plan of reorganization was progressing smoothly enough. General Slocum, Searles, of the Sugar Trust, and other prominent and wealthy men were to go into it The company has taken in \$3,000,000 of premiums, of which \$800,000 or so was for railroad liabilities. The railroad business was found to be decidedly unprofitable on account of the deceiving statistics, and the company was caught severely through losses in this line. The other business on the company's books is good. The losses of the company have never exceeded 22 per cent. on business other than the railroad business. Street-car companiés were patrons of the casualty company, but it was found that the change of lines to other power than mule power increased the liabilities at an unusual rate. The statistics on which the company depended were based on mule power. Then it was found that deceptive statistics were furnished by railroads. The company began to cancel this railroad business as fast as it could, but the stringency came along and prevented them from meeting all their obligations. The company now has no railroad business in Indiana. We have not had the Citizens' Street-railroad Company, of this city, since a year ago last December, I am now making arrangements to reinsure the business in Indiana in another company."

Spreckels Asks for a Receiver. SAN FRANCISCO, Nov. 23 .- In the Superior Court this afternoon C. A. Spreckels and H. M. Wooley commenced suit against the Hawailan Commercial and Sugar Company. The suit is for an accounting of all moneys and property in the possession of the corporation. An order is asked for restraining the defendant from transacting any business. Plaintiffs ask for the appointment of a receiver to assume control of the company's affairs. The complaint makes serious charges of fraud and other irregularities. The suit involves about \$1,-

Other Business Troubles. BALTIMORE, Nov. 23 .- A decree affect-

ing between 200,000 and 300,000 persons was signed by Judge Harlan to-day. In accordance with his decision made yesterday, the judge this morning ordered that the charter of the Supreme Court of the Equitable League of America be annulled; that the corporation be dissolved, and that its assets be discributed among the members entitled to them. To fulfill this order George R. Willis and S. Johnson Poe were appointed peceivers for the league, each being required to give \$400,000 bond. The league has \$316,000 in the vaults of the Safe Deposit and Trust and the Mercantile Deposit and Trust Company.

BALTIMORE, Nov. 23 .- The Mercantile Trust and Deposit Company, of Baltimore, and Edwin Austin have been appointed receivers of the American Casualty Insurance Company, and possession has been taken by them.

NEW YORK, Nov. 23 .- Morris Rosendorff and Louis J. Rosendorff, composing the firm of Rosendorff & Sons, buyers and sellers of dry gods, cloaks, furs and fancy goods, at Nos. 277 and 279 Grand street, have failed. LOUISVILLE, Ky., Nov. 23 .- W. B. Reynolds, a circus proprietor en route to Cincinnati, was jumped on here by his creditors, who filed thirty-three attach-

ments against him. Two ball writs were also issued. CHICAGO, Nov. 23 .- J. H. Pank & Co., maisters, have made an assignment. No statement of assets and Habilities has been filed, but it is thought the debts will not exceed \$50,000 nor the assets \$25,000.

Wheezing Whispers .- Almost everbody is hoarse. There is something in the air that provokes coughs and colds, and reduces the voice to a husky whisper. Fortunately, Hale's Honey of Horehound and Tar can be obtained of any druggist, and no hourseness or cough, however obstinate, can resist its curative operation. Pike's Toothache Drops cure in 1 minute.

Done his Best

Dr. Price has done his best to

make his Flavorings superior in strength, freshness, and fineness of flavor to any flavoring extracts made in the world, and ladies of the best taste, who are now using them, have decided that his intentions have been successful. Persons who desire a delicate and natural flavor in their cakes, puddings, or any table delicacy, will obtain it by using

Flavoring vanilla

A GOOD EXAMPLE

That Might Well Be Followed by Other Employers of Labor.

T IS ONE THING to provide for the unemployed on paper; it is quite another thing to provide for them in reality. The Inianapolis Brewing Company is undertaking to do this winter all the repairing that it has heretofore been customary to do in the spring. A large number of mechanics have been engaged for a mammoth new ice ma-

chine that the company will put in, and the contract stipulates that, as far as possible, only local workmen be employed. Many new wagons are being built, and the company has placed contracts for something over 20,000 bushels of malt and hops, which is being taken in now in order to employ drivers that heretofore have been laid off in the winter.

An Anti-Grippe Remedy. There is now an epidemic of the grip. It attacks most readily the debilitated. If the person with a tendency to weakness would take at luncheon and dinner a glass or two of the best and purest malt drink he would soon be fortified against this epidemic which, in fall and spring, attacks those of slender constitution with such direful results. There is no better tonic of the kind than the P. Lieber or Pilsener, or the C. F. Schmidt Budweiser, or Wiener Bier. The C. Maus Lager is equally good. They are brewed by the Indianapolis Brewing Company and are recommended by physicians. They contain about as much alcohol as good cider, a bottle has about as much nutriment as a meal of victuals and it is more readily assimilated. Ask your nearest re-

Lump and Crushed Coke

tailer to supply you with a case of the Bud-

weiser, or Pilsener, or any of the other

brands.
